Total All Accounts: \$294,184

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Patients who received medical care at a County facility: The compromise offers of settlement for patient accounts (1) - (5) are recommended because the patients are unable to pay the full amount of charges and the compromise offers represent the maximum amount the Department was able to negotiate or was offered under the legal settlement involved in these cases.

Patients who received medical care at non-County facilities: The compromise offers of settlement for patient accounts (6) - (10) are recommended because the County has agreements with certain non-County medical facilities under which it pays for emergency or trauma care provided to eligible indigent patients at those facilities. These agreements allow the County, after it has made payment for a particular patient, to pursue recovery from third parties who are financially responsible for such care.

The best interests of the County would be served by approving the acceptance of these compromises, as it will enable the Department of Health Services (DHS) to maximize net revenue on these accounts.

Implementation of Strategic Plan Goals

The recommended action supports Goal 1, Operational Effectiveness, of the County's Strategic Plan.

FISCAL IMPACT/FINANCING

This will expedite the County's recovery of revenue totaling approximately \$294,184.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Under County Code Chapter Section 2.76.046, the Director has the authority to reduce patient account liabilities by the greater of i) \$15,000, or ii) \$75,000 or 50 percent of the account balance, whichever is less. Any reduction exceeding the Director's authority requires Board approval.

On January 15, 2002, the Board adopted an ordinance granting the Director authority to compromise or reduce patient account liabilities when it is in the best interest of the County to do so.

On November 1, 2005, the Board approved a revised ordinance granting the Director authority to reduce, on an account specific basis, the amount of any liability owed to the County which relates to medical care provided by third parties for which the County is contractually obligated to pay, and related to which the County has subrogation or reimbursement rights. The revised ordinance was adopted by the Board on December 8, 2005.

Typically, recoveries in legal settlements are divided approximately into thirds between plaintiff,

plaintiff's attorney, and all medical lien holders, which would include the County's lien. Factors that contribute to each party receiving more or less than one-third of the recovery include the number of medical lien holders, the patient's attorney retainer agreement, and costs accrued by the patient during the legal process.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Maximizing net revenues on patients who received medical care at County facilities will help DHS meet its budgeted revenue amounts. All payments received for the trauma and IHP accounts (non-County facilities) will replenish the Los Angeles County Trauma and IHP Funds.

Respectfully submitted,
